NORTHVIEW EDUCATION FOUNDATION

We purely want to create inspiration in the lives of Northview students and faculty by providing funding and opportunities that produce resources and experiences that take education and it's future impact to the next level.

As governmental funding declines and the demands of education in today's world expand, it is up to us to help maintain our school system's high standards. With the necessary tools, our students can have an award-winning academic experience. A top rated school district benefits us all. Property values increase in areas with educational excellence and businesses experience better qualified and capable employees. Since 1990, more than \$414,495 has been awarded for projects throughout the Northview District. This includes 370 grants, \$40,000 to the District for technology and \$17,000 to Crossroads Middle School for a computer lab. The grants have encompassed everything from Mathematics, Science, Reading, Technology and English to Music, Art, Drama, Physical Education and the construction of Community Facilities. If you feel the same way about the Northview community, contact us about how you can get involved in any number of ways from donating, volunteering, becoming a trustee, or sponsoring an event.
